

SDG Goal 17

Partnerships for the goals

SDG Target 17.15

Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development

SDG Indicator 17.15.1

Extent of use of country-owned results frameworks and planning tools by providers of development cooperation

Time series

Proportion of indicator results drawn from country-led results frameworks by providers of development cooperation

1. General information on the time series

- Date of national metadata: 02 September 2021
- National data: <http://sdg-indikatoren.de/en/17-15-1/>
- Definition: This time series measures the extent to which, and the ways in which, all concerned development partners use country-led results frameworks (CRFs) to plan development cooperation efforts and assess their performance.
The time series assesses the degree to which providers of development cooperation (i.e. development partners) design their interventions by relying on objectives and resulting indicators that are drawn from country government-led results frameworks reflecting the country's development priorities and goals.
- Disaggregation: Not available.

2. Comparison with global metadata

- Date of global metadata: February 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-15-01.pdf>
- The time series is compliant with the global metadata.

3. Data description

- For each development intervention of significant size (US\$ 100,000 and above) approved during the year of reference, the following dimensions are assessed:
Q1. Whether objectives are drawn from government-led results frameworks, plans and strategies 0/1
Q2. Share of results (outcome) indicators that are drawn from government-led results frameworks, plans and strategies %
Q3. Share of results (outcome) indicators that will rely on sources of data provided by existing country-led monitoring systems or national statistical services to track project progress %

4. Accessibility of source data

- Development partners' use of country-led results frameworks - New development interventions draw their objectives from country-led results frameworks:
<http://dashboard.effectivecooperation.org/viewer>

5. Metadata on source data

- About Global Partnership Monitoring:
<http://effectivecooperation.org/monitoring-country-progress/making-development-co-operation-more-effective/>

6. Timeliness and frequency

- Timeliness: Not applicable.
- Frequency: Not applicable.

7. Calculation method

- Unit of measurement: %
- Calculation method:

Complex calculations. Please see under following link (page 27 ff) :
