1. General information on the time series

- Date of national metadata: 19 May 2022
- National data: <http://sdg-indicators.de/12-8-1/>

3. Data description

- For each of the four components of this indicator (national education policies, curricula, teacher education and student assessment) a score is calculated, based on the responses on the corresponding questions of the questionnaire of the 1974 Recommendation. These questions evaluate the national implementation of both global citizenship education and education for sustainable development.

The questions are coded with simple "Yes", "No" and "N/A" answers, with a score of "1" for "Yes" and "0" for "No". "N/A" responses will not be included as part of the overall score calculation. For most questions there is also the answer option "Unknown" which is evaluated like a "No".

Most of the questions can be answered separately for education levels Pre-primary, Primary/ secondary, Tertiary and Non-formal whereas only the answers for education level Primary/ secondary are taken into account for the calculation of the indicator.

4. Access to data source

- Responses to the questionnaire on the application of the UNESCO's 1974 Recommendation concerning Education for International Understanding, Co-operation and Peace and Education relating to Human Rights and fundamental Freedoms are not publicly available.

$i \in \{(a) \text{ national education policies; } (b) \text{ curricula; } (c) \text{ teacher education; } (d) \text{ student assessment}\}$
