

<b>SDG Goal 1</b>	<b>No poverty</b>
<b>SDG Target 1.a</b>	<b>Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions</b>
<b>SDG Indicator 1.a.2</b>	<b>Proportion of total government spending on essential services (education, health and social protection)</b>
<b>Time series</b>	<b>Government expenditure on health</b>

### 1. General information on the time series

- Date of national metadata: 02 September 2021
- National data: <http://sdg-indikatoren.de/en/1-a-2/>
- Definition: The time series measures the share of government spending on health. Government outlays on health include expenditures on services provided to individual persons and services provided on a collective basis (for further information see COFOG code 7).
- Disaggregation: Not available.

### 2. Comparison with global metadata

- Date of global metadata: July 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-02.pdf>
- The global metadata only applies to the education component. Global metadata for the components health and social protection are still missing.

### 3. Data description

- The data are part of the national accounts of the Federal Statistical Office. The data on government spending on health is classified based on the UN Classification of the Functions of Government (COFOG).

### 4. Accessibility of source data

- National accounts - General government expenditure: functions of government (COFOG) – GENESIS online 81000-0138:  
<https://www-genesis.destatis.de/genesis//online?operation=table&code=81000-0138&bypass=true&language=en>

### 5. Metadata on source data

- Quality report of National Accounts:  
<https://www.destatis.de/EN/Methods/Quality/QualityReports/National-Accounts-Domestic-Product/einfuehrung.html>

### 6. Timeliness and frequency

- Timeliness: t + 8 months
- Frequency: Annual

## 7. Calculation method

- Unit of measurement: %
- Calculation method:

$$\text{Government expenditure on health} = \frac{\text{Government spending on health [bnEUR]}}{\text{Total government spending [bnEUR]}} \cdot 100 [\%]$$

<b>SDG Goal 1</b>	<b>No poverty</b>
<b>SDG Target 1.a</b>	<b>Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions</b>
<b>SDG Indicator 1.a.2</b>	<b>Proportion of total government spending on essential services (education, health and social protection)</b>
<b>Time series</b>	<b>Government expenditure on education</b>

### 1. General information on the time series

- Date of national metadata: 02 September 2021
- National data: <http://sdg-indikatoren.de/en/1-a-2/>
- Definition: The time series measures the share of government spending on education. Government outlays on health include expenditures on services provided to individual persons and services provided on a collective basis (for further information see COFOG code 9).
- Disaggregation: Not available.

### 2. Comparison with global metadata

- Date of global metadata: July 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-02.pdf>
- The time series is compliant with the global metadata. It is one of the three components of the SDG indicator.

### 3. Data description

- The data are part of the national accounts of the Federal Statistical Office. The data on government spending on health is classified based on the UN Classification of the Functions of Government (COFOG).

---

## 7. Calculation method

- Unit of measurement: %
- Calculation method:

$$\text{Government expenditure on education} = \frac{\text{Government spending on education [bnEUR]}}{\text{Total government spending [bnEUR]}} \cdot 100 [\%]$$

<b>SDG Goal 1</b>	<b>No poverty</b>
<b>SDG Target 1.a</b>	<b>Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions</b>
<b>SDG Indicator 1.a.2</b>	<b>Proportion of total government spending on essential services (education, health and social protection)</b>
<b>Time series</b>	<b>Government expenditure on social protection</b>

### 1. General information on the time series

- Date of national metadata: 02 September 2021
- National data: <http://sdg-indikatoren.de/en/1-a-2/>
- Definition: The time series measures the share of government spending on social protection.

Government outlays on social protection include expenditures on services and transfers provided to individual persons and households and expenditures on services provided on a collective basis (for further information see COFOG code 10).

- Disaggregation: Not available.

### 2. Comparison with global metadata

- Date of global metadata: July 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-02.pdf>
