

<b>SDG Goal 10</b>	<b>Reduced inequalities</b>
<b>SDG Target 10.7</b>	<b>Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies</b>
<b>SDG Indicator 10.7.3</b>	<b>Number of people who died or disappeared in the process of migration towards an international destination</b>
<b>Time series</b>	<b>Persons who died during migration</b>

### 1. General information on the time series

- Date of national metadata: 8 August 2022
- National data: <http://sdg-indicators.de/10-7-3/>
- Definition: The time series measures how many deaths of migrants were recorded at the external borders, or in the process of migration.
- Disaggregation: Not available.

### 2. Comparability with the global metadata

- Date of global metadata: December 2021
- Global metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-10-07-03.pdf>
- The time series is compliant with the global metadata.

### 3. Data description

- The data is derived from the "Missing Migrants Project" of the International Organization for Migration as part of the United Nations System. The data comes from a range of sources. These include official records, media reports, NGOs and surveys as well as interviews of migrants. The data includes migrants who died during the journey to a country different from their country of residence. Not included are those deaths that occurred in immigration detention facilities, refugee camps or housing, within their country of origin as well as deaths more loosely connected with migrants' irregular status, such as those resulting from labour exploitation.

### 4. Access to data source

- Missing Migrants Project:  
<https://missingmigrants.iom.int/>

### 5. Metadata on source data

- Not available.

### 6. Timeliness and frequency

- Timeliness: Not available.
- Frequency: Annual

## 7. Calculation method

- Unit of measurement: Number
- Calculation:

**Not applicable.**
