

SDG Goal 17	Partnerships for the goals
SDG Target 17.18	By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts
SDG Indicator 17.18.2	Number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics
Time series	National implementation of statistical legislation that is consistent with the Fundamental Principles of Official Statistics in Germany

1. General information on the time series

- Date of national metadata: 7 December 2022
- National data: <http://sdg-indicators.de/17-18-2/>
- Definition: The time series measures the number of countries that have national statistical legislation that complies with the Fundamental Principles of Official Statistics referring to the number of countries that have a statistical legislation which respects the principles of UNFOP.
- Disaggregation: Not available.

2. Comparability with the UN metadata

- Date of UN metadata: December 2024
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-18-02.pdf>
- The time series is compliant with the UN metadata.

3. Data description

- The SDG indicator is not a statistical one. Therefore the time series states if Germany has a mechanism in place to enhance policy coherence of sustainable development.

4. Access to data source

- Paris21 – Compliance with United Nations Fundamental Principles of Statistics:
<https://statisticalcapacitymonitor.org/indicator/135>

5. Metadata on source data

- The European Statistics Code of Practice:
<https://ec.europa.eu/eurostat/web/products-catalogues/-/ks-02-18-142>

6. Timeliness and frequency

- Timeliness: Not applicable.
- Frequency: Annual

7. Calculation method

- Unit of measurement: yes=1, no=0
- Calculation:

Not applicable.
