

## SDG Goal 15

## Life on land

<b>SDG Target 15.9</b>	<b>By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts</b>
<b>SDG Indicator 15.9.1</b>	<b>(a) Number of countries that have established national targets in accordance with or similar to Kunming-Montreal Global Biodiversity Framework Target 14 in their national biodiversity strategy and action plans and the progress reported towards these targets; and (b) integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting</b>
<b>Time series</b>	<b>(a) National strategies and action plans in accordance with the Global Biodiversity Framework</b>

### 1. General information on the time series

- Date of national metadata: January 22, 2026
- National data: <https://sdg-indicators.de/15-9-1>
- Definition: The time series shows whether Germany is implementing national strategies and action plans within the framework of the Global Biodiversity Framework.
- Disaggregation: Not available.

### 2. Comparability with the UN metadata

- Date of UN metadata: July 2024
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-15-09-01.pdf>
- The time series is compliant with the UN metadata.

### 3. Data description

- The indicator shows whether Germany is implementing the globally defined targets of the Global Biodiversity Framework in its national strategies and action plans. Until 2020, Aichi Biodiversity Target 2 formed the basis; from 2023 onwards, Target 14 of the Kunming-Montreal Framework for Biodiversity applies. The information for the indicator is provided by the Federal Ministry for the Environment, Climate Protection, Nature Conservation and Nuclear Safety (BMUKN).

- Not available.

## 6. Timeliness and frequency

- Timeliness: Not available.
- Frequency: Not available.

## 7. Calculation method

- Unit of measurement: yes=1, no=0
- Calculation: Not applicable.

## SDG Goal 15

## Life on land

<b>SDG Target 15.9</b>	<b>By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts</b>
<b>SDG Indicator 15.9.1</b>	<b>(a) Number of countries that have established national targets in accordance with or similar to Kunming-Montreal Global Biodiversity Framework Target 14 in their national biodiversity strategy and action plans and the progress reported towards these targets</b>
<b>Time series</b>	<b>(b) Implementation of the principles of biodiversity in the SEEA</b>

### 1. General information on the time series

- Date of national metadata: March 9, 2023
- National data: <https://sdg-indicators.de/15-9-1>
- Definition: The time series measures a score between 0 and 3 for the implementation of biodiversity values into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting (SEEA).
- Disaggregation: Not available.

### 2. Comparability with the UN metadata

- Date of UN metadata: July 2024
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-15-09-01.pdf>
- The time series is compliant with the UN metadata.

### 3. Data description

- Data stems from the Global Assessment of Environmental-Economic Accounting and Supporting Statistics survey administered by the UNSD. The Global Assessment collects information on whether countries are currently planning or implementing System of Environmental-Economic Accounting (SEEA) accounts, the specific accounts being implemented and plans for new/future accounts. The sub-indicator disaggregates implementation into three progressive stages. A score of 0 means "No compilation", 1 means "Compilation", 2 "Dissemination" and 3 "Regular compilation and dissemination".<br><br>Since the accounts of the SEEA have been regularly compiled and published in Germany since the mid-1990s, the data presented here are transferred accordingly to the reporting years in which no survey of the Global Assessment of Environmental-Economic Accounting and Supporting Statistics took place.
