

SDG Goal 10 Reduced inequalities

SDG Target 10.7 Facilitate orderly, safe, regular and responsible migration and mobility

of people, including through the implementation of planned and well-

managed migration policies

SDG Indicator 10.7.2 Proportion of countries with migration policies that facilitate orderly, safe, regular

and responsible migration and mobility of people

Time series State of migration policies

### 1. General information on the time series

• Date of national metadata: 1 June 2023

• National data: <a href="http://sdg-indicators.de/10-7-2/">http://sdg-indicators.de/10-7-2/</a>

• Definition: The time series measures the state of migration policies.

• Disaggregation: policy area

## 2. Comparability with the UN metadata

• Date of UN metadata: March 2023

• UN metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-10-07-02.pdf

• The time series is compliant with the UN metadata.

## 3. Data description

- The time series is the result of an evaluation composed of 30 questions grouped in six domains. These six domains are:
  - 1. Migrant rights
  - 2. Whole-of-government/Evidence-based policies
  - 3. Cooperation and partnerships
  - 4. Socioeconomic well-being
  - 5. Mobility dimension of crises
  - 6. Safe, orderly and regular migration

Based on the answers an overall score can be calculated across all six domains. Categories of the overall score are:

- Values of less than 40 are coded as "Requires further progress" = 1 Point
- Values of 40 to less than 80 are coded as "Partially meets" = 2 Points
- Values of 80 to less than 100 are coded as "Meets" = 3 Points
- Values of 100 are coded as "Fully meets" = 4 Points

### 4. Access to data source

• SDG Indicator 10.7.2 on Migration Policies:

https://www.un.org/development/desa/pd/data/sdg-indicator-1072-migration-policies

• UN DESA Questionnaire, assessment 2018/2019:

#### 5. Metadata on source data

United Nations Inquiry among Governments on Population and Development:
<a href="https://esa.un.org/PopPolicy/inquiry/en/UN%2012th%20Inquiry%20Module%20III%20International%20Migration.pdf">https://esa.un.org/PopPolicy/inquiry/en/UN%2012th%20Inquiry%20Module%20III%20International%20Migration.pdf</a>

# 6. Timeliness and frequency

• Timeliness: Not available.

• Frequency: Every 2 years

#### 7. Calculation method

• Unit of measurement: No unit

• Calculation:

For each of the six domains, the computational methodology is the unweighted average of the values across the 30 sub-categories:

$$\mathbf{D_i} = \frac{\sum_{j} \mathbf{s}_{ij}}{\mathsf{n}} \cdot 100 \, [\%]$$

Where D<sub>i</sub> refers to the value for domain i;

 $\sum_{j} s_{jj}$  refers to the sum of the values across sub-categories (indexed by j) under domain i; and n refers to the total number of sub-categories in a domain (n = 5). For each domain, values of  $D_{j}$  range from a minimum of 0 to a maximum of 100 per cent.
