development

SDG Indicator 17.15.1 Extent of use of country-owned results frameworks and planning tools by providers

of development cooperation

Time series Country-owned results frameworks and planning tools

1. General information on the time series

• Date of national metadata: 9 May 2022

• National data: http://sdg-indicators.de/17-15-1/

- Definition: This time series measures the extent to which, and the ways in which, all concerned
 development partners use country-led results frameworks (CRFs) to plan development cooperation
 efforts and assess their performance. The time series assesses the degree to which providers of
 development cooperation (i.e. development partners) design their interventions by relying on objectives
 and resulting indicators that are drawn from country government-led results frameworks reflecting the
 country's development priorities and goals.
- Disaggregation: Not available.

2. Comparability with the UN metadata

- Date of UN metadata: July 2024
- UN metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-17-15-01.pdf
- The time series is compliant with the UN metadata.

3. Data description

- For each development intervention of significant size (US dollar 100,000 and above) approved during the year of reference, the following dimensions are assessed:
 - Q1: Whether objectives are drawn from government-led results frameworks, plans and strategies [0/1]
 - Q2: Share of results (outcome) indicators that are drawn from government-led results frameworks, plans and strategies [%]
 - Q3: Share of results (outcome) indicators that will rely on sources of data provided by existing country-led monitoring systems or national statistical services to track project progress [%]

4. Access to data source
