

SDG Goal 1 No poverty

SDG Target 1.a Ensure significant mobilization of resources from a variety of sources,

including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and

policies to end poverty in all its dimensions

SDG Indicator 1.a.2 Proportion of total government spending on essential services (education, health

and social protection)

Time series Government expenditure on health

1. General information on the time series

• Date of national metadata: 7 July 2022

• National data: http://sdg-indicators.de/1-a-2/

- Definition: The time series measures the share of government expenditure on health. Government outlays include expenditures on services provided to individual persons and services provided on a collective basis (for further information see COFOG code 7).
- Disaggregation: Not available.

2. Comparability with the global metadata

- Date of global metadata: December 2021
- Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-02.pdf
- The global metadata only applies to the education component. Global metadata for the components health and social protection are still missing.

3. Data description

• The data is part of the national accounts of the Federal Statistical Office. The data on government spending on health is classified based on the UN Classification of the Functions of Government (COFOG).

4. Access to data source

 National accounts - General government expenditure: functions of government (COFOG) – GENESIS online 81000-0138:

https://www-genesis.destatis.de/genesis//online?operation=table&code=81000-0138&bypass=true&language=en

5. Metadata on source data

 Quality Report - National Accounts: https://www.destatis.de/EN/Methods/Quality/QualityReports/National-Accounts-Domestic-Product/national-accounts.pdf

6. Timeliness and frequency

- Timeliness: t + 8 months
- Frequency: Annual

Federal Statistical Office Page 1 of 6

7. Calculation method

- Unit of measurement: Percentage
- Calculation:

 $\textbf{Government expenditure on health} = \frac{\textbf{Government spending on health[BnEUR]}}{\textbf{Total government spending [BnEUR]}} \cdot 100 \, [\%]$

Federal Statistical Office Page 2 of 6

SDG Goal 1 No poverty

SDG Target 1.a Ensure significant mobilization of resources from a variety of sources,

policies to end poverty in all its dimensions

SDG Indicator 1.a.2 Proportion of total government spending on essential services (education, health

and social protection)

Time series Government expenditure on education

1. General information on the time series

• Date of national metadata: 7 July 2022

• National data: http://sdg-indicators.de/1-a-2/

- Definition: The time series measures the share of government expenditure on education. Government outlays include expenditures on services provided to individual persons and services provided on a collective basis (for further information see COFOG code 9).
- Disaggregation: Not available.

2. Comparability with the global metadata

- Date of global metadata: December 2021
- Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-02.pdf
- The time series is compliant with the global metadata. It is one of the three components of the SDG indicator.

3. Data description

• The data is part of the national accounts of the Federal Statistical Office. The data on government spending on health is classified based on the UN Classification of the Functions of Government (COFOG).

4. Access to data source

 National accounts - General government expenditure: functions of government (COFOG) – GENESIS online 81000-0138:

including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and

policies to end poverty in all its dimensions

SDG Indicator 1.a.2 Proportion of total government spending on essential services (education, health

and social protection)

Time series Government expenditure on social protection

1. General information on the time series

• Date of national metadata: 7 July 2022

• National data: http://sdg-indicators.de/1-a-2/

- Definition: The time series measures the share of government expenditure on social protection. Government outlays include expenditures on services and transfers provided to individual persons and households and expenditures on services provided on a collective basis (for further information see COFOG code 10).
- Disaggregation: Not available.
