3. Data description

- The data are taken from the Police Crime Statistics (PCS) by the Federal Criminal Police Office (Bundeskriminalamt, BKA). The PCS covers known criminal offences, victims and suspects. It includes attempts as well as completed offences for every year. Since the data are summarising only cases which were brought to the attention of the police, our numbers underestimate the real situation. If a person is a victim of more than one crime or repeatedly victim of the same crime, it is counted multiple times.
