SDG Goal 3	Good health and well-being
SDG Target 3.8	Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
SDG Indicator 3.8.2	Proportion of population with large household expenditures on health as a share of total household expenditure or income
Time series	Proportion of population with large household expenditures on health as a share of total household expenditure or income

1. General information on the time series

- Date of national metadata: 02 September 2021

- National data: http://sdg-indikatoren.de/en/3-8-2/

- Definition: The data shows the proportion of population with large household expenditures on health as a share of total household expenditure or income.

- Disaggregation: household expenditures on health

2. Comparison with global metadata

- Date of global metadata: March 2019

- Global metadata: https://unstats.un.org/sdgs/metadata/files/Metadata-03-08-02.pdf

- The time series is not compliant with the global metadata, but provides additional information.

3. Data description

- The data is taken from the "Socio-Economic Panel (SOEP) 2010" from the German Institute for Economic Research (DIW Berlin). The data "household expenditures on health" was collected uniquely in 2010.

4. Accessibility of source data
