

SDG Goal 1 No poverty

SDG Target 1.a Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions

SDG Indicator 1.a.1 Total official development assistance grants that focus on poverty reduction as a share of the recipient country's gross national income

Time series Commitments and gross disbursements of Official Development Assistance for poverty reduction

1. General information on the time series

- Date of national metadata: June 15, 2026
- National data: <https://sdg-indicators.de/1-a-1>
- Definition: The time series shows Germany's commitments and gross disbursements of Official Development Assistance (ODA) for poverty reduction.

The allocation is based on Creditor Reporting System (CRS) purpose codes. The CRS is the OECD's (Organisation for Economic Co-operation and Development) international standard classification system for development finance and is used to classify development cooperation activities by sector and purpose.

The following CRS codes are included:

CRS-Codes 112: Basic education
CRS-Codes 122: Basic health
CRS-Codes 140: Water supply and sanitation
CRS-Code 16050: Multisector aid for basic social services
CRS-Code 52010: Food assistance

- Disaggregation: Type of Official Development Assistance

2. Comparability with the UN metadata

- Date of UN metadata: December 2025
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-01-0a-01.pdf>

Note: The indicator refers to developing countries, of which Germany is not a member.

- The time series is not compliant with the UN metadata, but provides additional information. The reasons are as follows:
 - It shows Germany's ODA, while the UN metadata provides information on the development assistance received from the perspective of developing countries.

- o ODA is expressed in absolute monetary units and not in relation to the Gross National Income (GNI) of the recipient countries.

3. Data description

- According to the OECD, ODA is government support that is specifically “designed to promote the economic and social development of developing countries.”

ODA is an internationally recognised measure agreed within the OECD Development Assistance Committee (DAC). It comprises financial flows provided by official agencies to developing countries, their nationals, or international organisations for the benefit of developing countries. Private contributions and charitable donations are not recorded as ODA.

The DAC List of ODA Recipients is generally revised every three years by the DAC on the basis of the World Bank income classifications.

4. Access to data source

- OECD – ODA for poverty reduction [Selections: CRS Creditor Reporting System (flows); Sector: 112, 122, 140, 16050, 52010; Measure: Official Development Assistance; Channel: All channels; Modality: All modalities; Flow type: Disbursements, Commitments]:
