

SDG Goal 17

Partnerships for the goals

SDG Target 17.19

By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries

SDG Indicator 17.19.1

Dollar value of all resources made available to strengthen statistical capacity in developing countries

Time series

Commitments and gross disbursements of Official Development Assistance to strengthen statistical capacity

1. General information on the time series

- Date of national metadata: June 15, 2026
- National data: <https://sdg-indicators.de/17-19-1>
- Definition: The time series shows Germany's commitments and gross disbursements of Official Development Assistance (ODA) to strengthen statistical capacity.

The allocation is based on Creditor Reporting System (CRS) purpose codes. The CRS is the OECD's (Organisation for Economic Co-operation and Development) international standard classification system for development finance and is used to classify development cooperation activities by sector and purpose.

The following CRS codes are included:

CRS-Code 16062: Statistical capacity building

- Disaggregation: Type of Official Development Assistance

2. Comparability with the UN metadata

- Date of UN metadata: June 2025
- UN metadata: <https://unstats.un.org/sdgs/metadata/files/Metadata-17-19-01.pdf>
- The time series is partly compliant with the UN metadata. Since the UN metadata are based on additional studies and an online survey conducted by PARIS21, the values presented here are expected to be lower than those reported by PARIS21.

3. Data description

- According to the OECD, ODA is government support that is specifically "designed to promote the economic and social development of developing countries."

ODA is an internationally recognised measure agreed within the OECD Development Assistance Committee (DAC). It comprises financial flows provided by official agencies to developing countries, their nationals, or international organisations for the benefit of developing countries. Private contributions and charitable donations are not recorded as ODA.

The DAC List of ODA Recipients is generally revised every three years by the DAC on the basis of the World Bank income classifications.

4. Access to data source

- OECD – ODA to strengthen statistical capacity [Selections: CRS Creditor Reporting System (flows); Sector:16062; Measure: Official Development Assistance, Other Official Flows (non Export Credit); Channel: All channels; Modality: All modalities; Flow type: Disbursements, Commitments]:

5. Metadata on source data

- General information about ODA:
<https://www.oecd.org/en/topics/official-development-assistance-oda.html>
- List of the OECD DAC purpose codes and channel codes:
<https://development-finance-codelists.oecd.org/CodesList.aspx>
- DAC list of ODA Recipients:
<https://www.oecd.org/en/topics/sub-issues/oda-eligibility-and-conditions/dac-list-of-oda-recipients.html#oda-recipients-list>

6. Timeliness and frequency

- Timeliness: t + 11 months
- Frequency: Annual

7. Calculation method

- Unit of measurement: Million EUR; Million USD, constant prices
- Calculation: Not applicable.
